Name: No Organization

Title of Hearing: Hearing on Responding to Long-Term Unemployment

Please accept my request to extend Long-Term Unemployment. I have worked since I was 19 years of age. I am now 65. I lost my job due to layoff the last of October 2008. I have searching for work extensively and none has found. I am sure my age comes into play, although my work history and skill are excellent, each position available receives 1,000's of resumes. My unemployment ran out this week and I have been informed it will not be extended. I ask that consideration be made to the many of US citizens that face this situation and extend the long term unemployment. I had rather work any time than to be on unemployment. **We need help.** The United States needs jobs.

Sincerely,

Linda Saxton
